

## NEWS GATHERED FROM SOUTHSIDE

Mr. Toney Says That He Will Accept Position As Councilman.

GLASS PLANT ENLARGED

Pintsch Gas Company Soon to Complete Its New Plant.

Bazaar Closed.

Manchester Bureau, Times-Dispatch, 1 No. 1103 Hull Street.

Mr. D. L. Toney was interviewed last night in regard to his unanimous election to the City Council, in place of Mr. A. J. Daffron, resigned. Mr. Toney said that while he had not sought the position, he would fill it to the best of his ability. He had not asked for the position, nor had he made any endeavor to secure it from any other nominees; but since it had been delegated to him without any opposition, he would accept it.

Mr. Toney was elected on the nomination of Mr. C. L. Pettit, and was elected without a dissenting vote. Mr. Toney has served once in the Council, three times in the Legislature, and once as postmaster. He is in the choice of him the Council exercised a wisdom that will prove the sanity of its choice.

**Enlarge Their Plant.**  
The Pintsch Glass Company is enlarging its plant, running it out from Twenty-first and Stockton Streets. The company has built back about sixty feet from Twenty-first Street, and this additional space will be used as storage room by the company. The glass company has enlarged considerably since its founding, and is now employing a large number of hands.

**Gas Soon to Be Ready.**  
The Pintsch Gas Company will soon complete its new plant, which is in process of erection at Fourth and Bridge Streets. Work on the buildings is being pushed rapidly, and it is expected that the firm will be able to use its new quarters by the first of the year.

**Bazaar Closed Last Night.**  
The bazaar which has been given by the ladies of Clifton Street Church was closed last night with an auction of all the left-over articles. The bazaar has cleared about \$50 or \$70, and the committee in charge of the affair feel very much encouraged with their showing. The bazaar was a complete success, and the church was very much benefited by the work of the ladies who did so much for the cause.

**Personals and Briefs.**  
Dr. Edward Leitch Peil will speak this morning in Central Methodist Church on "The Sunday School; Its Value to the Nation, the Church and the Home." At night there will be a home coming of all the Methodists of the city. A programme has been arranged for this service.

Dr. E. T. Rucker has returned from a visit from Florida.

The Joint Annexation Committee will meet in the City Hall of Richmond, Monday night.

"Appearing as Grasshoppers" will be the subject for the morning service of Rev. J. L. Sullivan in Oak Grove Baptist Church. At night his subject will be "Kadesh Barnea."

Rev. J. B. Cook will preach on "A Good and Pleasant Thing" in Clifton Street Church this morning.

Mr. Charles B. Maurice, the eldest son of Mayor Maurice, who has been ill with tonsillitis, is well again.

**MERGER RUMORS REVIVE.**

Persistent Report That Iron Concerns Will Consolidate.

(Special to The Times-Dispatch.)  
NEW YORK, Nov. 11.—The great strength in Tennessee Coal and Iron, Bloss-Shelby and Iron, and a less extent Republic Iron and Steel, brought a revival of merger rumors, which found credence in many quarters.

Some of the most conspicuous buyers, however, that while they had heard reports about a pending merger of the Southern Iron concerns they did not know whether there was any truth in them. At the same time they made predictions as to the market course of these stocks, which would not be justified by the actual developments were contemplated.

The excellent condition of the Southern Iron market was the extensive reason for the advance in this group of stocks, but while knowledge of a scheme to bring the companies into closer relationship was denied by those most active in the movement, the lack of confirmation of current reports was attributed to the fear that the venture might interfere with the progress of negotiations.

Early in the year plans for merging these companies were perfected, but never carried out. The necessary money necessary to start the new company on a secure basis. It was reported yesterday that the necessary financial backing could now be secured for the project.

**CANE FOR PRESIDENT.**

Fire Destroys Dwelling in Northumberland Without Insurance.

(Special to The Times-Dispatch.)

FREDERICKSBURG, VA., November 11.—Mr. Robert Coleman, of Spotsylvania county, who for several years has been an inmate of the Soldiers' Home at Richmond, has been spending a fortnight at his old home and while there cut on the battlefields of Spotsylvania county a lot of handsome canes. One of these he will take to President Roosevelt in the next mail.

This cane has a knot in it for every year in the President's name. It was cut on the Bloody Angle battlefield near where General Sedgwick fell in battle. Mr. Coleman was a gallant member of the Ninth Virginia Cavalry.

A few days ago fire destroyed the residence of Mr. Hyson in Northumberland county, together with furniture and other contents of the house. Mr. Hyson recently purchased the property from Mr. Sanford. The house was while occupied by Mr. Sanford, but Mr. Hyson had failed to get the policy transferred and therefore he will get no insurance.

**Princeton, 16; Cornell, 6.**

(By Associated Press.)  
PRINCETON, N. J., November 11.—Princeton rose to the occasion today and defeated Cornell in a splendid exhibition of football by the score of 16 to 6. From the start until about fifteen minutes before the second half closed the game was closely contested, and at no time did Cornell allow Princeton to gain without the most stubborn resistance.

## WELCOME WORDS TO WOMEN.

From the view point of the average man housework is very easy. The wife is right at home. She is her own mistress. She can sit down and rest any time. She can even go to bed for a nap if she feels like it. She can order her household affairs just to suit her own convenience. If she doesn't feel equal to doing work to-day, she can do it to-morrow. That's the beautiful theory of the average man.

Just suppose the Egyptian task-masters, when they made the required daily tale of bricks tax the utmost of human strength, had said to the toiling slaves, "Don't hurry, take a rest every now and then—only don't forget that your tale of bricks must be all right at night or else there'll be trouble."

There's the fact. There are the day's duties to be got through, and the women who can rest may not. The woman who, when she married, said, "Now, I'll be my own mistress," finds herself a slave to household cares and duties.

And oh how much that woman needs rest sometimes. She brushes and scrubs, and rolls pastry, her temples throbbing, her back aching, her nerves quivering under the stress of pain. What she would give if she could just creep upstairs and throw herself on the bed in a darkened room and rest.

Rest would temporarily relieve the strain, doubtless, but it would be the same story again to-morrow. The real need of weak, nervous women is strength, and that need is fully met and satisfied by Dr. Pierce's Favorite Prescription.

It makes weak women strong and sick women well. It removes the causes of women's weakness, tranquilizes and invigorates the nerves, encourages the appetite and induces restful sleep. "Favorite Prescription" is a positive cure of the most complicated and obstinate cases of leucorrhea, excessive flowing, painful menstruation, unnatural suppression and irregularities, prolapse or falling of the womb, weak back, "female weakness," anteverision, retroversion, bearing-down sensations, chronic congestion, inflammation and ulceration of the womb, inflammation, pain and tenderness of the ovaries, accompanied with "internal heat."

I am pleased to add my testimony in behalf of Dr. Pierce's Favorite Prescription, writes Miss Earline Agard, Chaplin, Patriotic Daughters of America, of 113½ Michigan Avenue, Lansing, Mich. "I cannot find language to express my gratitude and joy over the fact that I am well once more. Wearing my corsets too tight seemed to have brought on an extra abdominal pressure, weakening the ligaments and causing the internal organs down. What to do I knew not, as no medicine I took seemed to help me."

"I had heard of Dr. Pierce's Favorite Prescription and determined to try it, as a last resort. Before the first bottle was used I began to feel better, but could hardly believe that this was permanent, but my improvement went steadily on, and within four months I was like a new woman. Now I have no more pains, am well and strong, and am extremely grateful to you."

There is nothing to conceal about the make-up of "FAVORITE PRESCRIPTION." It is an absolutely pure medicine—

made of native roots—Nature's own restoratives, compounded after a formula concerning which there can be no question, by skilled chemists and by thoroughly scientific processes. Doctor Pierce is perfectly willing to let every one know that his "FAVORITE PRESCRIPTION" contains Blue Cohosh root, Lady's Slipper root, Unicorn root, Black Cohosh root and Golden Seal root. Every doctor knows that such a prescription is beneficial in the diseases of women and when properly compounded is certain to effect a cure in nearly all cases when given a fair trial. Every bottle of the "FAVORITE PRESCRIPTION" which leaves Dr. Pierce's immense laboratories in Buffalo, N. Y., has plainly printed upon its wrapper all the ingredients of which it is composed. Thus Dr. Pierce proves to the world his own confidence in the remedy which for forty years has borne his name and which is known all through the United States and Canada, England, Australia, and all parts of a sovereign cure for those diseases which, unchecked, make our women old before their time.

It will be noticed that there is no alcohol in the "FAVORITE PRESCRIPTION." Dr. Pierce never believed in using alcohol in the preparation of his famous household remedies. For it, he substituted chemically pure glycerine, which has wonderful powers for extracting the medicinal principles of roots and preserving them at their full strength without any deleterious effect whatever.

In favor of Dr. Pierce's medicine is the frank, confident, open, honest statement of their full composition, giving every ingredient in plain English, without fear of successful criticism and without concealing the good nature of the afflicted will lead them to appreciate this honorable manner of confiding to them what they are taking into their stomachs when making use of these medicines.

Dr. Pierce feels that he can afford to take the afflicted into his full confidence and lay all the ingredients of his medicines freely before them because these ingredients are such as are endorsed and most strongly praised by scores of the most eminent medical writers of all the several schools of practice as cures for the diseases for which these medicines are recommended.

Your druggists sell the "FAVORITE PRESCRIPTION" and also that famous alternative, blood purifier and stomachic, the "GOLDEN MEDICAL DISCOVERY." Write to Dr. Pierce about you and he will treat your case as confidential and without charge for correspondence. Address him at the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., of which he is chief consulting physician.

It is as easy to be well as ill—and much more comfortable. Constipation is the cause of many forms of illness. Dr. Pierce's Pleasant Pellets are cathartics. They are tiny, sugar-coated granules. One little "Peller" is a gentle laxative, two a mild cathartic. All dealers in medicines sell them.

Send 31 one-cent stamps to cover cost of mailing and get a copy of Dr. Pierce's Common Sense Medical Adviser, over 1000 pages. Address Dr. R. V. Pierce, Buffalo, N. Y.

## SENTENCED FOR CRIMINAL LIBEL

James E. Dickenson, Colored, Editor, Given Time in Jail.

DECLARES HE IS A REFORMER

Senator Sale to Introduce a Bill to Create Insurance Commission.

(Special to The Times-Dispatch.)

NORFOLK, VA., November 11.—James E. Dickenson, colored, editor of the News and Advertiser, was convicted of criminal libel and his punishment fixed at five months in jail and \$100 fine. He was sentenced in the Police Court on the complaint of Josephine Davis, the leading soprano singer in St. John's Methodist Church, colored, for the publication of an article declaring that she was not a person to be in the church. He scored her and the officers and members of the church for allowing her to remain in the church. The article caused great indignation among the colored people. The stewards had a meeting and determined that there was no evidence on which to base a complaint against the singer, and they advised the church to drop the matter. Joseph Davis, who is superintendent of the Sunday school, brought the complaint to the courts. The first trial in the Corporation Court was set aside, and this is the second trial, with the same verdict. Dickenson says he is trying to elevate the race and is a reformer.

**SENATOR SALE'S BILL.**  
Senator W. W. Sale, who has been re-elected to the General Assembly from Norfolk, will introduce a bill for a State Insurance Commission, and a bill for the readjusting of the State into Congressional districts at the next session. He declares that the disclosures in New York and the investigations into the grafting and frauds of the insurance companies in other States makes some legislative action necessary in Virginia. Senator Sale says:

"I make no charges, and at this time do not care to go into detail about conditions in Virginia, but I do say that an insurance commissioner for the State is a necessity, and I believe the next Legislature will endorse my views. Of course,

there will be opposition to the bill, but I will reintroduce it in the hope of securing its passage this time. The measure I propose contains nothing radical. It does this, however, and therein lies one of the principal objections of the insurance companies—I stipulate that the cost of maintenance of the office shall be paid by the insurance concerns operating in the State. This is done elsewhere, and there is no reason why it should not be done in Virginia."

**ONE MAN KILLED; EIGHT OTHERS INJURED.**

(By Associated Press.)

ALBINO, TEX., November 11.—East-bound Texas and Pacific passenger No. 6 known as the "Cannon Ball," was wrecked about two miles west of Iowa Switch to-day, killing one man and injuring eight others.

**FATHER WILSON, fireman of the front engine, buried under wreck, Fort Worth.**

The train was a double header and the two engines turned over just as they struck it curve at the top of the heavy grade, up which they were pulling the train of fifteen coaches heavily loaded with passengers.

Both engines, the mail and baggage engine, struck the wreck, and the latter car hit the rear. Only two passengers out of 800 received injuries.

## LITTLE LEVIN WON THE GAME

Pennsylvania Star Left End Was Twice Laid Out, But As Often Recovered.

CRIMSON OUTPLAYED PENNSY IN FIRST HALF, BUT ONLY MADE ONE FIRST DOWN IN LAST.

(By Associated Press.)

PHILADELPHIA, November 11.—Pennsylvania to-day defeated Harvard in one of the fiercest gridiron battles ever witnessed on Franklin Field. The final score was 12 to 6. Both eleven scored a touchdown and kicked the goals in the first half, and the Quaker eleven added a second touchdown in the second half.

It is a peculiar coincidence that Lamson, the player over whom there has been so much contention, should have scored both touchdowns for the Pennsylvania eleven. That there was ill feeling between the players of the two eleven was made apparent early in the first half, when Parker, the crimson center, was disqualified for slugging, and again in the second half, when Shoblo was sent to the club house for a like offense. Both touchdowns in the first half were due to an element of luck.

The numerous changes in the Harvard line, which the difference in the Pennsylvania players went into the tandem play of the crimson's. Five men were so badly weakened that they were sent to the side lines. The Pennsylvania line-up remained intact, however, with the exception of Shoblo, who made too free use of his hand. There was probably never a football game played in which there was such a difference in the two halves. In the first half Harvard outplayed Pennsylvania and gained ground almost at will, while in the second half the crimson players made only one first down.

The particular star was little Levin, Pennsylvania's left end. It is no exaggeration to state that he played the most remarkable game in football ever witnessed in this city. He followed the ball perfectly and time and again broke up Harvard's interference before the play had gone six feet. Six times during the game he recovered the ball after some member of his team had fumbled. He was never laid out, because of his force tackling, but he always resumed play after receiving the sponge bath.

Over 22,000 people saw the game.

**Christian Science To-day.**  
Mrs. Mims, who is a lecturer on Christian Science at the Academy of Music this afternoon, relates a pleasing incident which happened not long since in her home city, Atlanta, Ga. A public entertainment was being given for the benefit of a worthy cause, and when the performers appeared on the platform, there were John Temple Graves and Sam Jones to deliver addresses. Mrs. Mims recited a poem, and others to sing, and so on.

When Sam Jones's turn came, he said: "I have been to the Academy of Music this afternoon, relates a pleasing incident which happened not long since in her home city, Atlanta, Ga. A public entertainment was being given for the benefit of a worthy cause, and when the performers appeared on the platform, there were John Temple Graves and Sam Jones to deliver addresses. Mrs. Mims recited a poem, and others to sing, and so on."

At the close of the entertainment Mr. Jones addressed the assembly. "Major," said he, "your wife is all right."

**Fire in Leesburg.**

(Special to The Times-Dispatch.)  
LEESBURG, VA., November 11.—The Leesburg Steam Laundry plant of this town, owned by John R. Clemens and Archibald Carr, was destroyed by fire Friday night.

The loss is about \$4,000, and the insurance one-half that amount. The origin of the fire is unknown.

**THEORIES ABOUT FOOD.**

Also a Few Facts on the Same Subject.  
We hear much nowadays about health foods and hygienic living, about vegetarianism, and many other fads along the same line.

Restaurants may be found in the larger cities where no meat, pastry or coffee is served and the food cranks in its glory, and arguments and theories galore advanced to prove that meat was never intended for human stomachs, and almost make us believe that our sturdy ancestors, who lived four-score years in robust health on roast beef, potatoes and corn must have been grossly ignorant of the laws of health.

Our forefathers had other things to do than formulate theories about the food they ate. A warm welcome was extended to any kind from bacon to acorns. A healthy appetite and common sense are excellent guides to follow in matters of diet, and a mixed diet of grains, fruits and meats is undoubtedly the best. As compared with grains and vegetables, meat furnishes the most nutriment in a highly concentrated form and is digested and assimilated more quickly than vegetables or grains.

Dr. Julius Remmonson, on this subject, says: "The people who run down in health and of low vitality should eat meat and plenty of it. If the digestion is too feeble at first, it may be easily corrected by the regular use of Stuart's Dyspepsia Tablets after each meal. Two of these excellent tablets taken after dinner will digest several thousand grains of meat, eggs or other animal food, in three hours, and no matter how weak the stomach may be, no trouble will be experienced if a regular practice is made of using Stuart's Dyspepsia Tablets, because they give the people a means of safely restoring perfect digestion, and every form of indigestion will be overcome by their use."

That large class of people who consider the head of nervous dyspepsia should eat plenty of meat and insure its proper supply by the use of a safe, harmless digestive medicine like Stuart's Dyspepsia Tablets, composed of the natural digestive principles of pepsin, diphosphoric acid, and salts, which actually perform the work of digestion. Cheap enthralling medicines, masquerading under the name of dyspepsia cures, are useless for indigestion, as they have absolutely no effect upon the actual digestion of food.

Dyspepsia in all its many forms is simply a failure of the stomach to digest food, and the sensible way to solve the cure is to make the stomach do its duty by the use of Stuart's Dyspepsia Tablets, which is endorsed by the medical profession and known to contain active digestive principles.

## Simcoe, Tackett &amp; Company,

309 East Broad Street  
Successors to Pemberton, Price & Co.

Monday marks the beginning of the last week of this sale of great interest to you. Not a dull day has been the record of this remarkable sale. A sale almost without precedent of a stock largely new—coming as it did at the beginning of a season when the goods are wanted by every one. We want to make the sales of this last week a record breaker, and have prepared most tempting values for that purpose.

## Dress Goods at Half Price

We have taken from the Dress Goods stock about one hundred lengths, mostly patterns. A great number of these goods have been marked down to one-half former prices, and now the marked down prices are cut in half, thus giving you an excellent chance to buy these goods for about one-fourth of the original price.

## Silks at Half Price

Our Silk stock has contributed to the interest of Monday's sale. A large line of attractive ends come to you at just one-half of the prices. Most of these prices are mark-downs, so you get these for just about one-fourth of former or original prices. These prices marked are for the ends as they are; none of the pieces will be cut.

Another sale of interest at about one-half price. All our plain and plaited bosom white dress shirts go at 59c. All in good order, and mostly all sizes in stock.

Splendid values in the Cloak Suit and Skirt stock. Many garments remaining have had the knife put in them this past week, and we expect during the week to close out every garment in this stock; they must go. No alterations made during the sale.

Special reductions in Silks, Dress Goods, Blankets, Table Linens, Towels, etc.

No matter what you want to buy in the Dry Goods line, you can be assured of buying cheaper here than elsewhere.

Monday's special see case display. A clean-up on Rugs. Every Rug has a mark-down value, and we expect to sell every Rug on hand in this, Monday's sale.

## Simcoe, Tackett &amp; Co.

The best formula for prosperity prescribes industry, frugality and sound investment in equal parts mixed well and taken daily.

Work, save, deposit your dollars in our Savings Department.

Compound interest will do the rest.

We pay 3 per cent. We guard your money night and day. And the United States government with all its military power protects you from the possibility of loss.

You can bank by mail if out of town. Ask us how.

**Planters' Nat'l Bank,**  
Savings Department,

Richmond, Va.

Capital, \$300,000. Surplus and Profits, \$900,000

## Public Opinion Affixes the Stamp of Approval.

The Times-Dispatch, during October, 1905, published the following schedule of paid advertisements:

22,110 inches of paid advertisements.

2,178 inches increase over October, 1904.

Divide 22,110 by 81 (the number of days in October) shows—

718 inches as daily average for paid advertisements published in The Times-Dispatch, during the month of October, 1905.

This is the largest daily average advertising of any paper published in Virginia, and emphasizes the fact that The Times-Dispatch is not only Virginia's greatest newspaper, but is also Virginia's greatest advertising medium.
